

## User's Guide

One of the most important things to remember about our SpeedyShop website is that everything is on the same page. That is, the website is divided into five sections, and each section can flip over to show different information and interactivity. The sections are recycled. Here's how it looks like by default:

### Customer

Although you can browse items without an account, they need an account to purchase items and add items to their cart. The login screen appears in the upper right-hand corner and looks like:  
If you have an account, they simply login.

However, you do not have an account, click the “Don’t have an account?” text. Additional text boxes appear. Create your account right there!

Fill in your information for a new account. When you are done, hit “Sign Up” and you are instantly logged in, as seen below.

Welcome! Choose your favorite Username. You'll use this to enter the site.

Last Name: Herpington

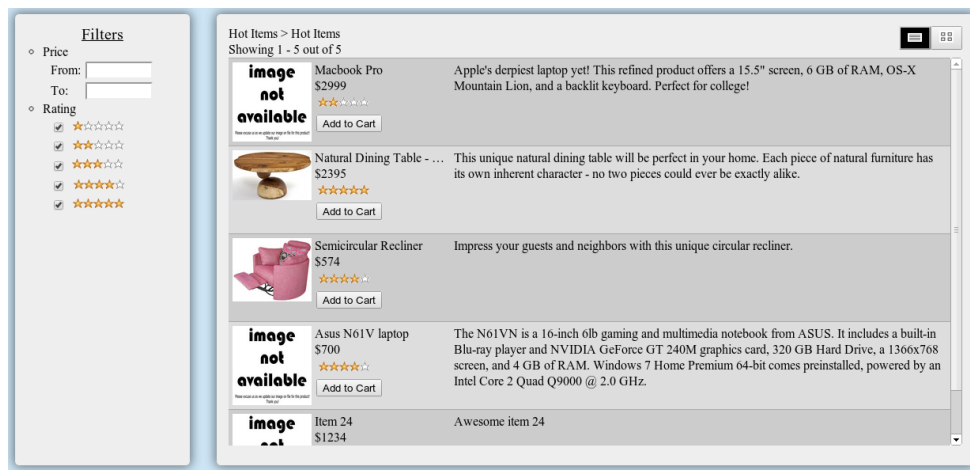

Sign Up

The system will recognize you as a customer, employee, or an admin. Employees can switch to Customer view, and Admins can switch to both Employee and Customer views if they wish.

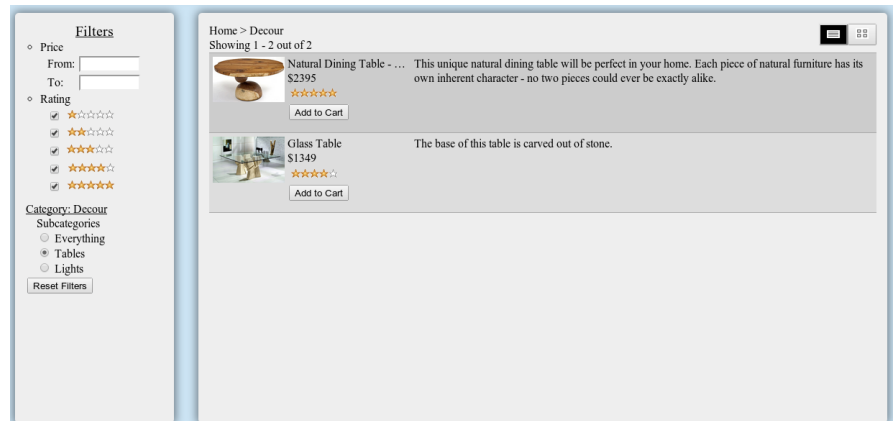

First, choose one of the categories. You will be shown all the items in that category.

Choose the “Hot Items” category to see the most popular items. The items are presented in descending order of popularity, and up to 30 will be listed.

Apply a filter to the list. Here, the “tables” subcategory is chosen, so out of all items in Home > Decour, only tables are shown. Each category has its own distinct subcategories to choose from. The “Price” and “Ratings” filter is common to all categories.

The item list can also be presented as blocks instead of a linear list. Use the two buttons in the upper right-hand corner of the center panel to switch between the views.

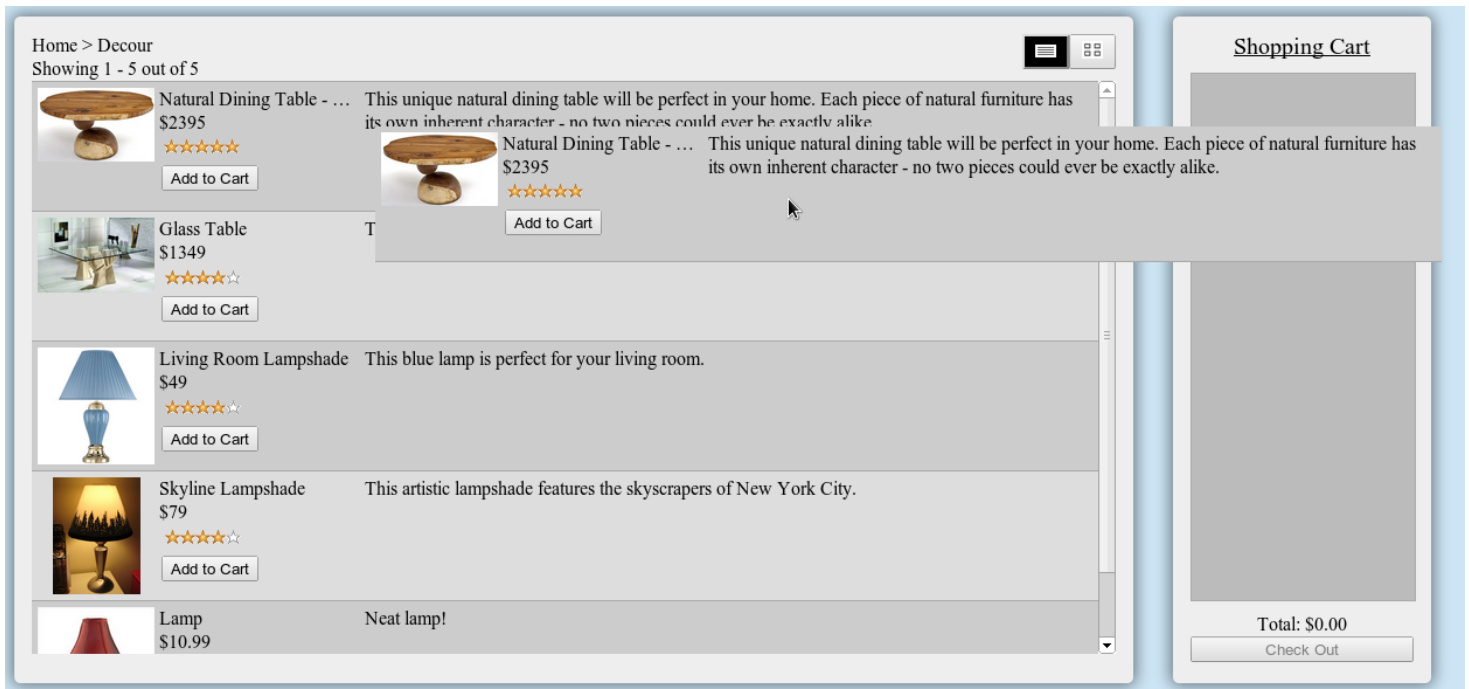

Click on an item for more detail.  
The image becomes larger,  
alternative images are presented,  
and any reviews appear in the  
module to the left.

Own the item and want to add a  
review? Click the “Add Review”  
button in the left panel. Enter  
your name, your thoughts on the  
product, and your rating. Then  
hit “Submit Review”. If you  
choose not to submit your  
review, press “Cancel Review”.

Your review then appears  
in the list of reviews.

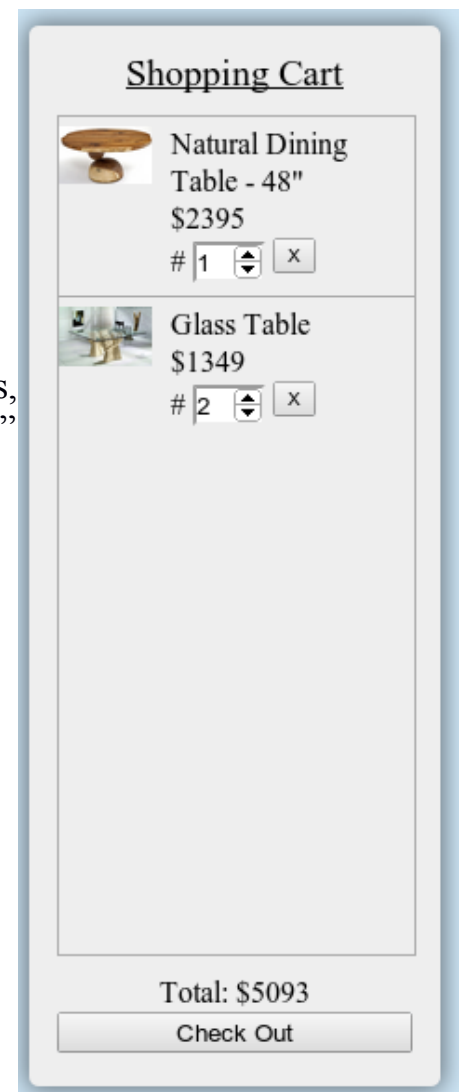

To add an item to the cart, you can literally drag and drop it onto the shopping cart.

Of course, you can also click “Add to Cart” if you want.

If the item is already present in the cart, the Quantity value will increase by one.

Your selected items appear in the Shopping Cart. You can use the arrows, the mouse scrollwheel, or type in the desired quantity. Click “Check out” when you are ready to purchase the items.
